

## Talent Payment Rates & Agency Partnership

*What you earn. How it works. Built to grow with you.*

At Margot Marie, we believe great talent deserves to be paid fairly and grow sustainably. Every arrangement begins with professional production sessions — which we pay you for — followed by full OnlyFans account management on your behalf. You create. We handle everything else. Your earnings grow. We take a modest agency fee and everybody wins.

### The Margot Marie Pathway

Every talent follows our three-phase pathway. This isn't just a structure — it's a training programme designed to make you as successful as possible on OnlyFans.

- 1 Phase 1 — Production Sessions**  
Minimum 3 professional shoots. We pay you. You learn the craft.
- 2 Phase 2 — Self-Shot Certification**  
Unlocked after Phase 1. You shoot yourself daily. We manage everything.
- 3 Phase 3 — Full Agency Partnership**  
Ongoing. Revenue share. Your account grows. So does your income.

### Phase 1 — Production Sessions (We Pay You)

All new talent begins with a minimum of three professional production sessions at our studio. These sessions seed your OnlyFans account with high-quality hero content, and — just as importantly — train you to understand lighting, angles, posing, and what actually performs well on the platform. By the time you complete Phase 1, you'll know exactly how to shoot yourself effectively. We pay you for every session.

### Phase 3 – Agency Revenue Share

Once your OnlyFans account is live and generating income – from both your professional session content and your self-shot daily content – Margot Marie takes an agency management fee from your monthly earnings. As you grow, our fee decreases. The better you do, the more you keep. That’s how it should work.

Monthly Earnings	You Keep	Agency Fee	What This Means
\$0 – \$1,999	<b>75%</b>	25%	Starting out – building your audience, your content library, your confidence
\$2,000 – \$4,999	<b>80%</b>	20%	Growing – your audience is established, your earnings are rewarded
\$5,000+	<b>85%</b>	15%	Established – you’ve built something real. You keep the lion’s share.

Revenue share is calculated on gross OnlyFans income before platform fees. Payments are made monthly. The agency fee covers: account management, content scheduling, subscriber engagement, DM management, promotional strategy, and monthly reporting.
